Admissions FAQ’s

Note: Admissions to the Center for Physician Assistant Studies are highly competitive and conducted on a rolling basis, i.e., applications are reviewed when received. It is highly recommended that you complete your application as early as possible and that you contact the program to be assigned an advisor.

How do I contact my advisor? All applicants are assigned an advisor upon submitting a Supplemental Application to the Center for Physician Assistant Studies. They can be reached at (518) 262-5251.

How does the Albany Medical Center rolling admissions process work?

1. Application complete including:
   - All application components (including A, B, & C are received in the Program Office).
     - Supplementary Application
     - CASPA Profile with all references
     - GRE scores
   [Applications cannot be processed until all components reach our office. Applications that are completed after the application deadline (Nov. 1) will not be processed.]

2. Advisor presents applicant to faculty with recommendation.
   - Tabled for later consideration
   - Declined
   - Interviewed
   - Accepted by faculty

Recommendation made to Graduate Studies Program

- Declined
- Accept

What were the qualifications of the typical student accepted in 2013?

Undergraduate GPA: 3.51  GRE: Verbal 58%ile  Health care experience: 3,031
Science GPA: 3.42  Math  53%ile
Analytical  49%ile

How do Albany Medical College graduates perform on the Physician Assistant National Certification Examination (PANCE)?

See “Official NCCPA Pass Rate Report”
Linked to the home page or:
http://www.amc.edu/Academic/PhysicianAssistant/documents/Pass_Rate_Report.pdf

Does the Center award advance standing or transfer credit for study at other institutions? The Center does not. All students complete all required courses at Albany Medical College.

Is there a part-time track? No. All students attend full-time for the 28 months.

Is it possible to work while attending the Program? No. This is strongly discouraged due to the rigorous nature of the program.

Do you accept non-citizen applicants? No. However, we do accept applications from US permanent residents with a valid permanent resident card (green card). By definition, if you have any type of visa other than a Permanent Resident status, then you are not eligible for admission. If you are currently applying for U.S. citizenship, but it has not yet been granted, you are not considered a U.S. citizen. If you are currently applying for an Alien Registration Receipt Card, but it has yet not been granted, you are not considered a Permanent Resident.

Meeting our Goals:
Graduates of AMC’s Center for Physician Assistant Studies can expect to have met the Center’s goals, which are:

- to graduate competent Physician Assistants
- prepared to practice in underserved, rural and culturally diverse settings
- to be equipped to engage in the scholarly activities of the profession.

As an AMC graduate you can expect to be employed as a physician assistant immediately upon completing certification and licensing. The Physician Assistant profession is one of the fastest growing in the country and demand for AMC graduates far exceeds the supply. However, as an AMC graduate, you can expect to be not merely employable, but to be competent. In surveys for the last 5 years, 96% of employer’s responses rated AMC graduates adequately or better prepared.

Second, as an AMC student you will have been prepared and encouraged to choose to practice with patients in underserved, rural, and culturally diverse settings. Every graduate will have had the opportunity to learn skills for working in these settings and upon graduation will have completed at least two clinical rotations with these patients.

Finally, you will be a life-long learner, equipped by training and practice to assess the medical literature and apply new knowledge, as it is discovered, in caring for your patients. As an AMC student you will have successfully achieved this goal through preparing and presenting a publication-quality poster as a graduation requirement.
