NOMINATIONS
The Albany Medical Center Prize in Medicine and Biomedical Research recognizes, encourages and supports extraordinary and sustained contributions to improved health care and innovative biomedical research that demonstrably facilitates improvements in patient care. Given annually, the $500,000 Prize is one of the largest awards in medicine and biomedical research in the United States. The Prize will be awarded to a physician, scientist or group that demonstrated substantial achievements of national or international importance in the last quarter of a century, with preference given to accomplishments of the past decade.

The recipient(s) of the Prize will be chosen by a committee comprising some of the nation’s preeminent medical scholars, physicians, professors and biomedical researchers. Designed to be both prestigious public recognition and an important resource for sustaining excellence in health care and biomedical research, it is an expectation that the $500,000 award will be used by the recipient(s) to make further significant advancements in his or her area of expertise.

PRIZE CRITERIA

The Albany Medical Center Prize in Medicine and Biomedical Research will be awarded at a ceremony in Albany, New York, in May 2015.

NOMINATION REQUIREMENTS

For a nominee(s) to be considered, all of the following items must be submitted. Incomplete nominations will not be considered.

☐ Completed nomination form (one for each nominee).

☐ A letter of nomination for each individual or group nominee detailing the individual’s or group’s extraordinary or sustained contribution to improving health care and patient care or describing the innovative biomedical research with demonstrated translational benefits applied to improved patient care.

☐ The curriculum vitae of the nominee(s).

☐ A bibliography consisting of the 20 most recent and/or relevant publications and articles related to the nomination.

☐ Two additional letters of support for each nominee or group.

Include one form and complete package per nominee. Additional forms may be downloaded at www.amc.edu/academic/albanyprize. Electronic submissions are encouraged. The Selection Committee will meet in January 2015 to review the nominations. Winners will be notified in March 2015.

Self-nominations will not be accepted.

Completed nominations will be accepted through December 3, 2014, and should be directed to:

Kim Fine
Secretary, The Albany Medical Center Prize in Medicine and Biomedical Research
c/o The Albany Medical Center Foundation

We accept and encourage online applications. https://www.amc.edu/albanyPrize/
If you prefer, you can still email or send applications via U.S. Mail or express mail.

Email: AMCprize@mail.amc.edu
Please note: All nomination requirements must be contained in one email. Multiple emails will not be accepted.

MORRIS “MARTY” SILVERMAN
1912–2006

The man who founded one of the nation’s largest prizes in medicine.

Marty Silverman’s spirit of unselfishness and tremendous pride in Albany Medical Center and the Capital Region remains very much alive in the Albany Medical Center Prize in Medicine and Biomedical Research. As the founder of one of the largest prizes in medicine in the United States—Marty made sure the prize would survive the test of time.

In celebrating the legacy of Marty Silverman, we are inspired by Marty’s infectious optimism and joie de vivre. In awarding the Prize, we pay tribute to this remarkable and generous man whose commitment to advancing biomedical research and supporting humanitarian efforts will forever be remembered.
